Better Regulation Delivery Office

- UK Government expert unit on regulatory delivery
- Jointly delivering the Government commitment to cut red tape, improve protection and boost UK economy
- Working with UK DfID iFUSE programme to support work to improve investment climate in developing economies

UK Government business regulation priorities 2015

- **Deregulation – cut a further £10 billion of red tape, freeing business to create jobs**
- **Doing business – make Britain the best in Europe by 2020**
- **Supporting small businesses – impact felt by businesses “on the ground”**
- **Europe – a new deal with Europe, including tackling EU regulation**

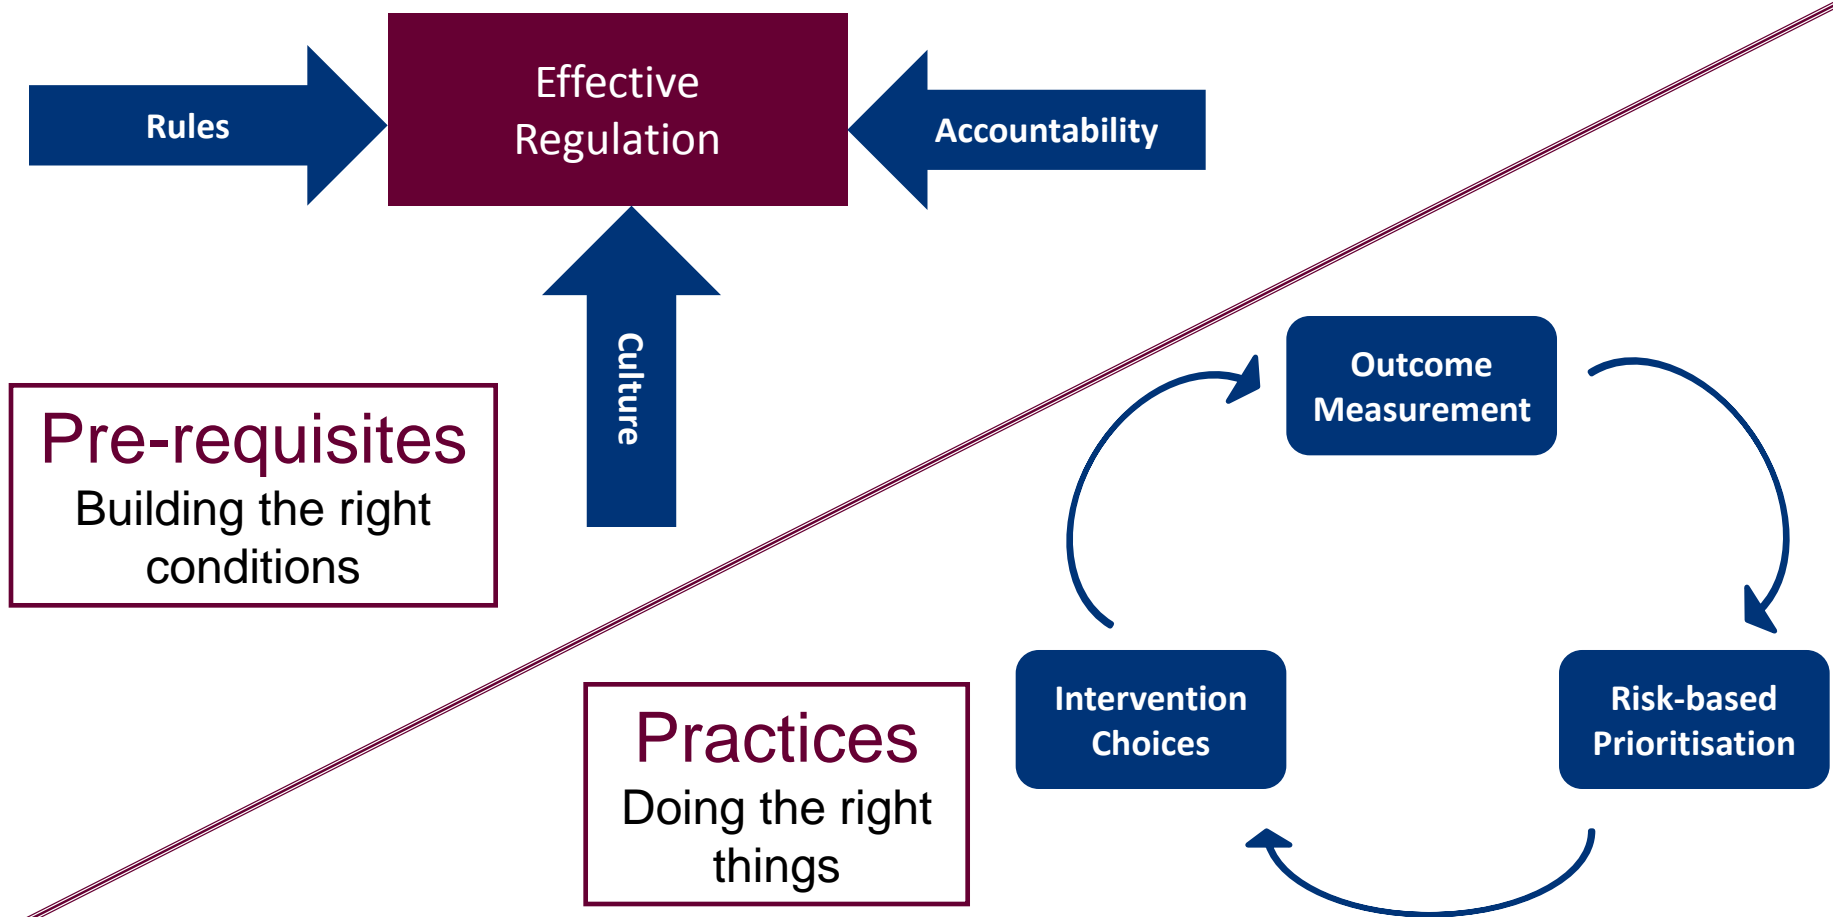

The UK regulatory landscape

- **16** different government ministries making regulations or regulatory policy
- Around **70** national regulatory agencies involved in policy and delivery
- Delivered by **433** local government authorities
- Regulation represents **1%** of local government spend

UK Regulatory Delivery

- Reduction of unnecessary burdens on business
- Risk based, targeted, proportionate
 - Change in culture

Effective regulatory systems need the right pre-requisites and practices

Current reform work in the UK

- **Regulators' Code** – statutory code of practice for regulators
- **Growth Duty** – statutory duty on non-economic regulators
- **Competency for regulators** – improving knowledge and skills
- **Common approach to risk assessment** – using risk to target activity
- **Business Engagement** – business reference panel, Better Business for All – local approach to problem solving
- **Primary Authority** – providing reliable advice to support businesses to comply

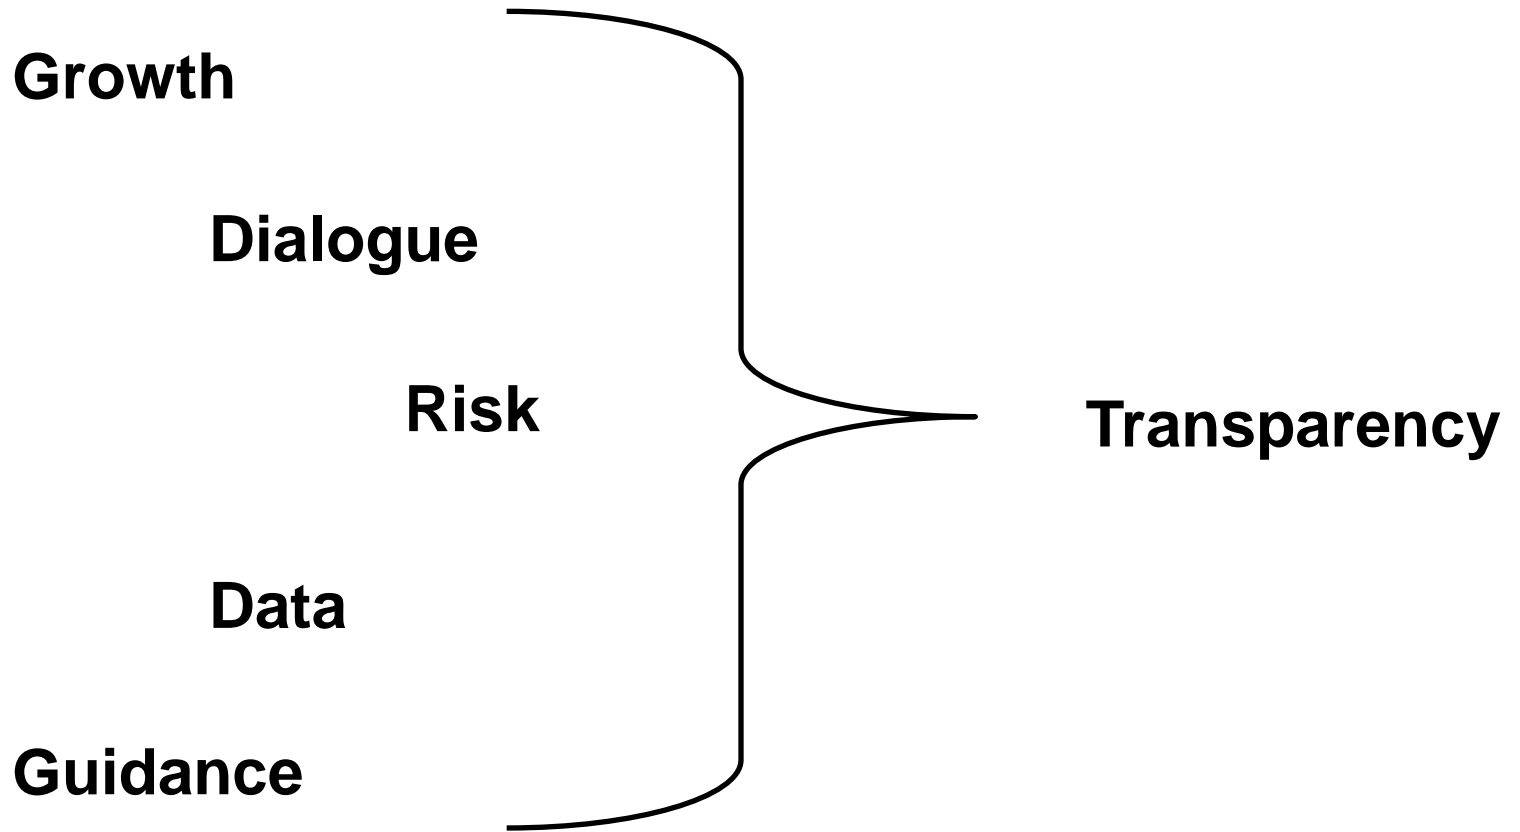

Regulators' Code

Improve the way regulation is delivered at the frontline

- Came into force on 6 April 2014
- Flexible framework for business engagement
- Regulators must have regard to it in their activities
- Supporting tools and templates are being created
- Work to increase business awareness continues

Regulators' Code

Growth Duty

Policy Aim:

- *clarity that growth is an important factor to be taken into account in the delivery of protections*
- *Duty created for regulators to have a regard to the desirability of economic growth*
- Amending legal framework to enable regulators to make improvements to the business experience of regulation and create regulatory environment supporting compliant growth.

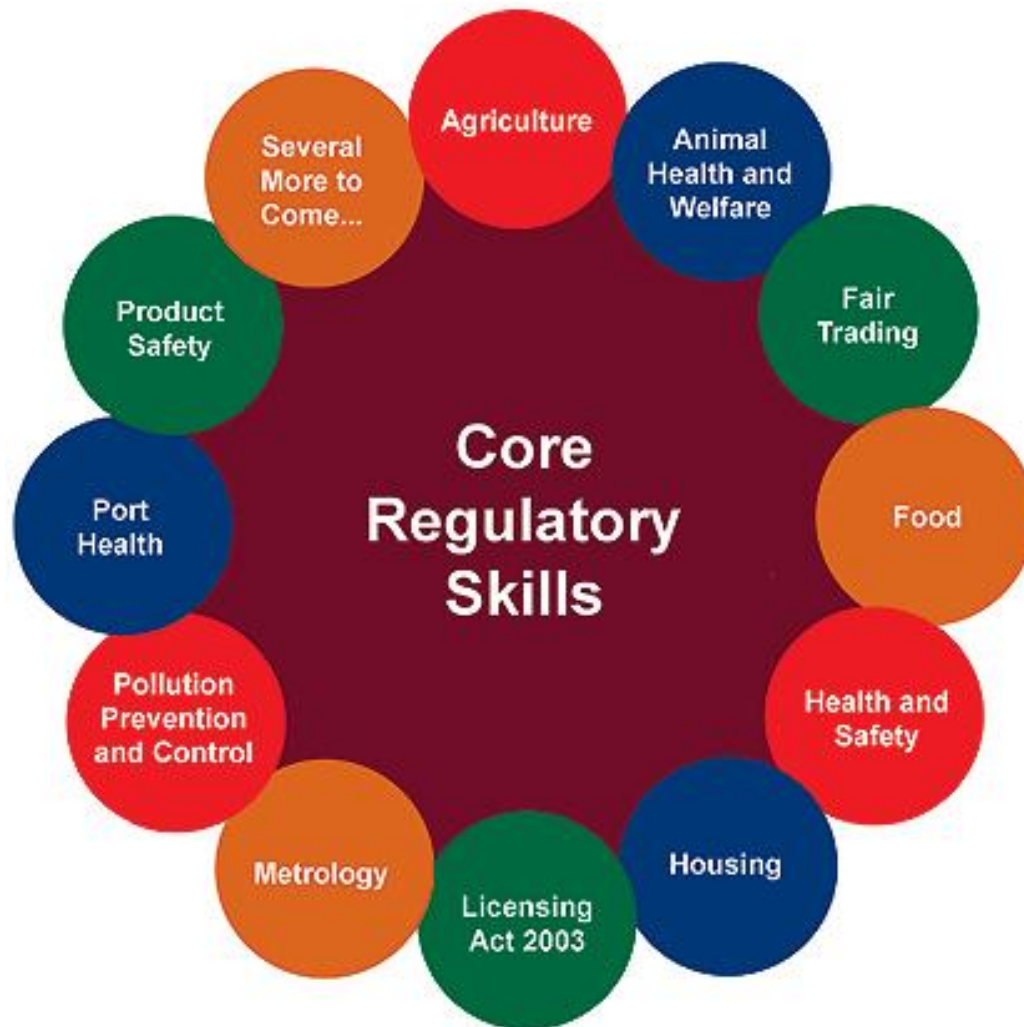

Current Status

- Deregulation Act 2015
- Guidance published
- Commencement Order required and will include list of regulators subject to the duty
- Wider reform package in Enterprise Bill – regulators will have to demonstrate compliance

Professional Standards for Competency

Core Skills

- Promoting compliance
- Advising & influencing
- Working with business
 - Enforcing legislation
 - Planning, organising and prioritising
 - IT Skills

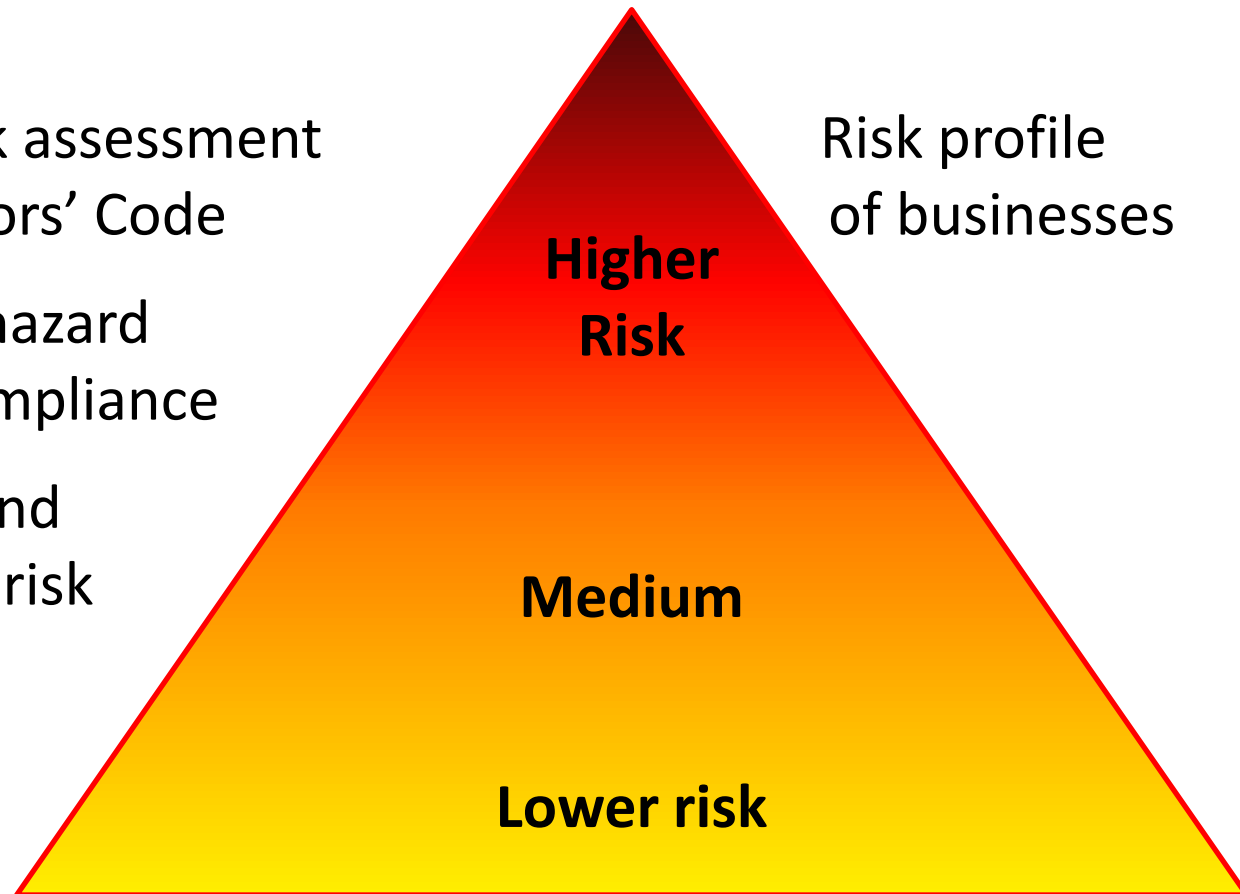

Knowledge

Health & Safety
Animal Health
Food
Product Safety
Pollution
Licensing
Agriculture

Practical Tools for Regulators

Risk Assessment

- Comprehensive risk assessment required by Regulators' Code
- Risk assessment – hazard and likelihood of compliance
- Intervention type and frequency based on risk
- Common approach being developed

Working with Business

- You can't regulate what you don't understand
- Understanding business needs and hearing the business voice
- ***Business Reference Panel***
- ***Primary Authority***
- ***Better Business for All***

UK Businesses on Regulation

61% of businesses: Local councils **do not understand businesses** well enough to regulate

1 in 7 businesses: regulation is the **most challenging** aspect of running a business

80% businesses: non-compliance would affect **relationships with our customers**

LBRO/NAO Business perspectives survey 2012

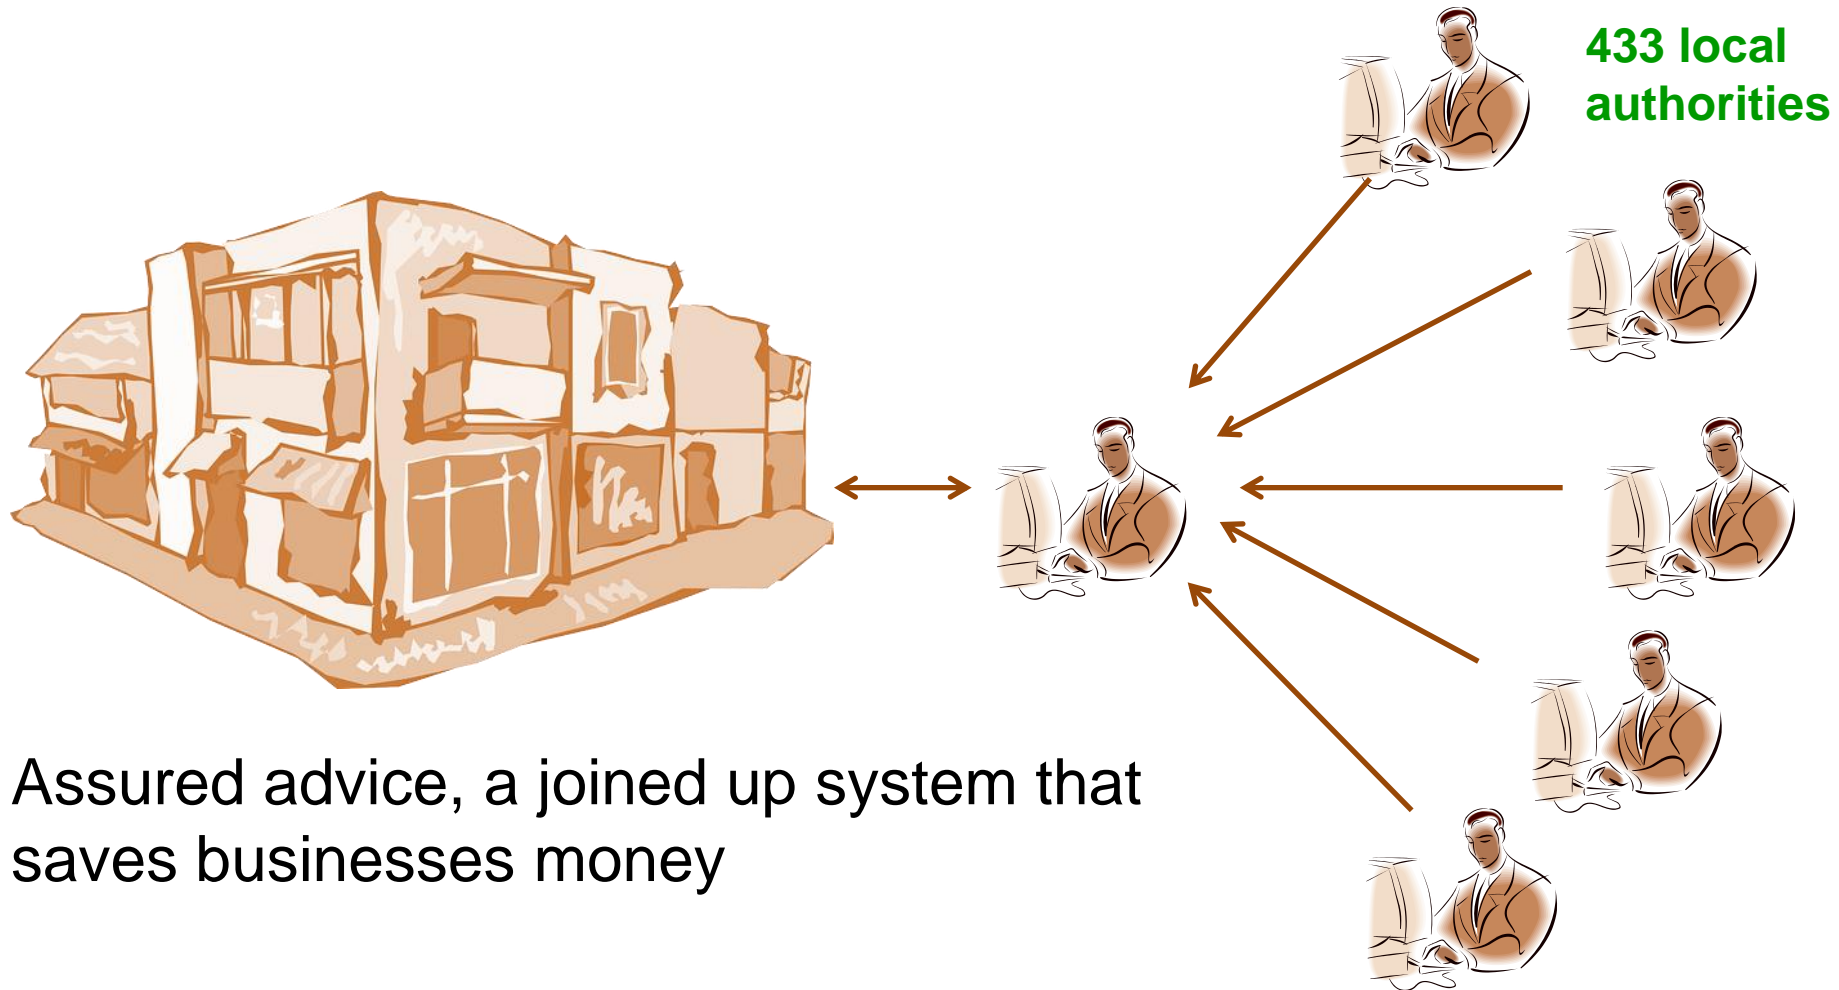

Understanding business needs

Business Reference Panel

- 130 organisations representing over 1million individual businesses
- Sector trade associations
- Honest feedback and good dialogue
- Tri-annual meetings
- Trading Places Scheme

Primary Authority

Better Business for All

- National Programme
- Regulators and business forming partnerships to simplify the way regulation is delivered in a locality
- Localities - 39 Local Enterprise Partnerships across England - these often form the geographical basis for the partnerships as they are focused on business growth
- Programme principles are building trust and relationships between
 - Different regulatory services that inspect business to create a greater common understanding of each other roles
 - Regulators and business so regulators can better help businesses comply

Summary - Key issues in enforcement

- Working with regulators
 - Priorities
 - Culture
- To make the right impact
 - Risk based targeting
 - Appropriate approaches
